**Cloud Solutions**

# 01. Enterprise Software Services

Our Enterprise Software Services provide scalable, secure, and tailored solutions, including ERP systems, custom software development, and seamless integrations. We help businesses optimize operations, improve decision-making, and drive growth, ensuring they remain competitive and agile in a fast-changing market.

## 02.Digital Transformation

Digital transformation enables businesses to innovate and adapt by leveraging advanced technologies like AI, cloud solutions, and automation. It streamlines operations, enhances customer experiences, and drives growth through data-driven insights and agile strategies, ensuring organizations stay competitive in the digital era.

## 03. ERP Solutions

Our ERP solutions empower businesses by integrating core operations into a single, efficient platform. With advanced features like automation, real-time analytics, and seamless data flow, we help organizations enhance productivity, reduce costs, and improve decision-making. Tailored to each business's unique needs, our ERP systems are scalable, ensuring long-term growth and a competitive advantage in a rapidly changing market.

## 04. E-Governance Services

Digital transformation enables businesses to innovate and adapt by leveraging advanced technologies like AI, cloud solutions, and automation. It streamlines operations, enhances customer experiences, and drives growth through data-driven insights and agile strategies, ensuring organizations stay competitive in the digital era.

## 05. Manage Security Services

Techonk Software Solutions PVT. LTD. designs products with built-in Managed Security Services, offering threat monitoring, firewall management, and data protection. Our scalable solutions ensure compliance, mitigate risks, and deliver 24/7 expert support for seamless business operations.

## 06. Modern Workplace Services

Techonk Software Solutions PVT. LTD. offers cloud-based tools, secure remote access, and unified communication systems to create flexible, collaborative work environments. Our services boost productivity, ensure data security, and support seamless operations across modern work models.

# 07. Cloud Solution

Techonk Software Solutions PVT. LTD. offers comprehensive Cloud Solutions, including seamless migration, scalable infrastructure, secure data storage, and real-time performance monitoring. Our hybrid cloud approach enhances agility, reduces costs, and ensures robust security, enabling businesses to optimize operations and drive growth.

# Our Company's Products

[ Clicking on any picture will open a link. ]

## Hospital Management System

Our Hospital Management System (HMS) streamlines hospital operations with features like online appointment booking, bed management, and medicine ordering. It supports online prescriptions and treatment billing, improving service efficiency. Administrators can track patient reports, manage hospital earnings, and oversee doctor recruitment and their individual earnings, ensuring smooth and efficient healthcare management.

# school Management System

Our School Management System (SMS) provides a comprehensive solution for managing student and teacher details, attendance, exams, timetables, fee management, admissions, and mark sheets. It tracks both current and historical student data, including attendance, results, and fees. The system ensures easy access to essential information, streamlining administrative tasks and enhancing communication between staff, students, and parents, ultimately..

# Stationery Management System

Our Stationery Management System streamlines order processing, allowing distributors to track orders in real-time. Admins can manage commissions, monitor earnings, and generate income reports. The integrated payment gateway enables secure financial transactions, ensuring smooth operations and transparency.

# Fleet Management System

Our Fleet Management System tracks vehicles in real-time, providing details like model, registration, fuel usage, and maintenance schedules. It also monitors driver behavior and generates income reports based on vehicle usage, routes, and deliveries, optimizing costs and maximizing profitability.

# Hotel Management System

Our Hotel Management System streamlines operations by efficiently managing bookings, check-ins, check-outs, and room availability. It offers features like guest management, invoice generation, and payment processing.

The system also tracks housekeeping, inventory, ensuring smooth hotel operations. With real-time reporting, it helps hotel managers make informed decisions, optimize resources, and enhance guest satisfaction.

# Customer Relationship Management System

Our Customer Relationship Management (CRM) System streamlines customer interactions, centralizes data, and automates workflows, enabling businesses to enhance relationships, improve efficiency, and make data-driven decisions. Designed for industries like retail, healthcare, and finance, it offers secure, scalable, and user-friendly solutions with 24/7 support for professional growth and customer satisfaction.

# Canteen Management System

Our Canteen Management System optimizes canteen operations with features like digital menu management, real-time order tracking, automated billing, and inventory control. Designed for businesses and institutions, it enhances efficiency, reduces costs, and provides valuable insights. Scalable and secure, it ensures smooth operations and customer satisfaction, backed by professional support.

# E-Governance Products

Our E-Governance solutions leverage advanced technologies to streamline government operations, enhance transparency, and improve access to public services for citizens and businesses. By integrating information, processes, people, and technology, we enable efficient, cost-effective governance. Our focus on smart governance ensures digital transformation through modernized IT systems, turning data silos into collaborative, information-sharing platforms that foster transparency, efficiency, and citizen-centric service delivery.

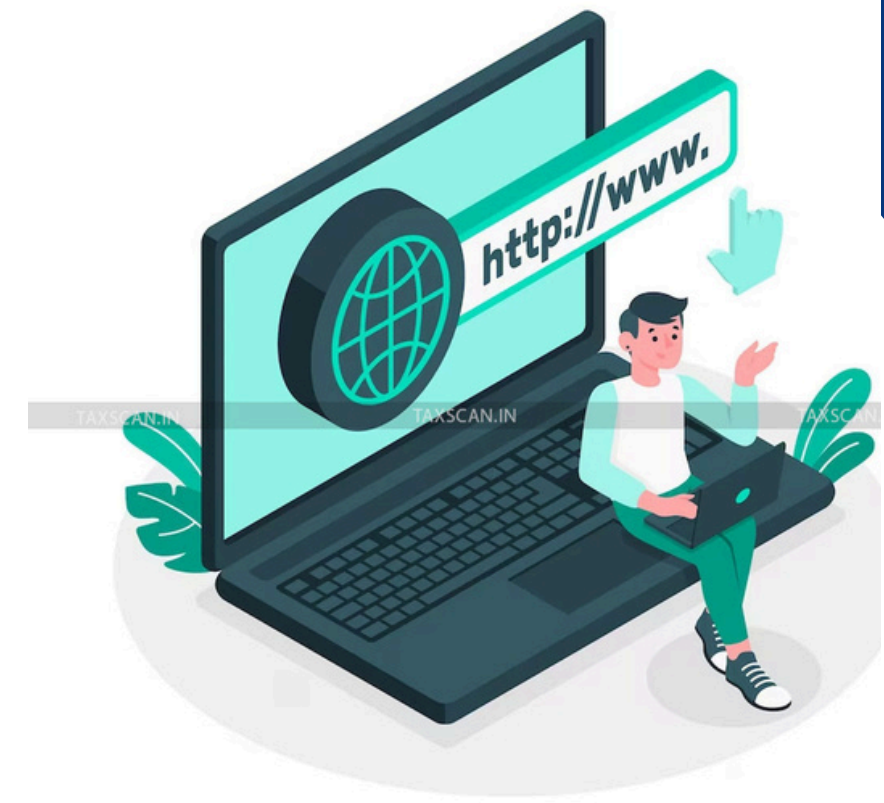

## 01. Birsa Munda Bhavan

Our company developed the Birsa Munda Bhavan project, blending tribal heritage with modern design. It features innovative architecture, sustainable construction, cultural spaces for exhibitions, and modern amenities like conference halls and recreational areas, creating a cultural center that honors Birsa Munda's legacy while offering contemporary facilities.

## 02. GST Portal

Techonk Software Solutions PVT. LTD.'s system streamlines GST filing, automates invoicing, and ensures accurate tax management with real-time insights, cost efficiency, and scalable design.

## 03. Integrated Financial Solutions

Techonk Software Solutions PVT. LTD. ne financial companies ke liye ek advanced integrated platform develop kiya hai, jo automated transactions, real-time reporting, aur secure payment gateways ko combine karta hai. Yeh scalable solution businesses ko financial data management, compliance, aur optimized decision-making me support karta hai, aur future regulations ke saath seamlessly adapt hota hai.

# Market Analysis

## 2021

Focused on strengthening core services, which resulted in expanded client engagement and a more robust market presence.

## 2022

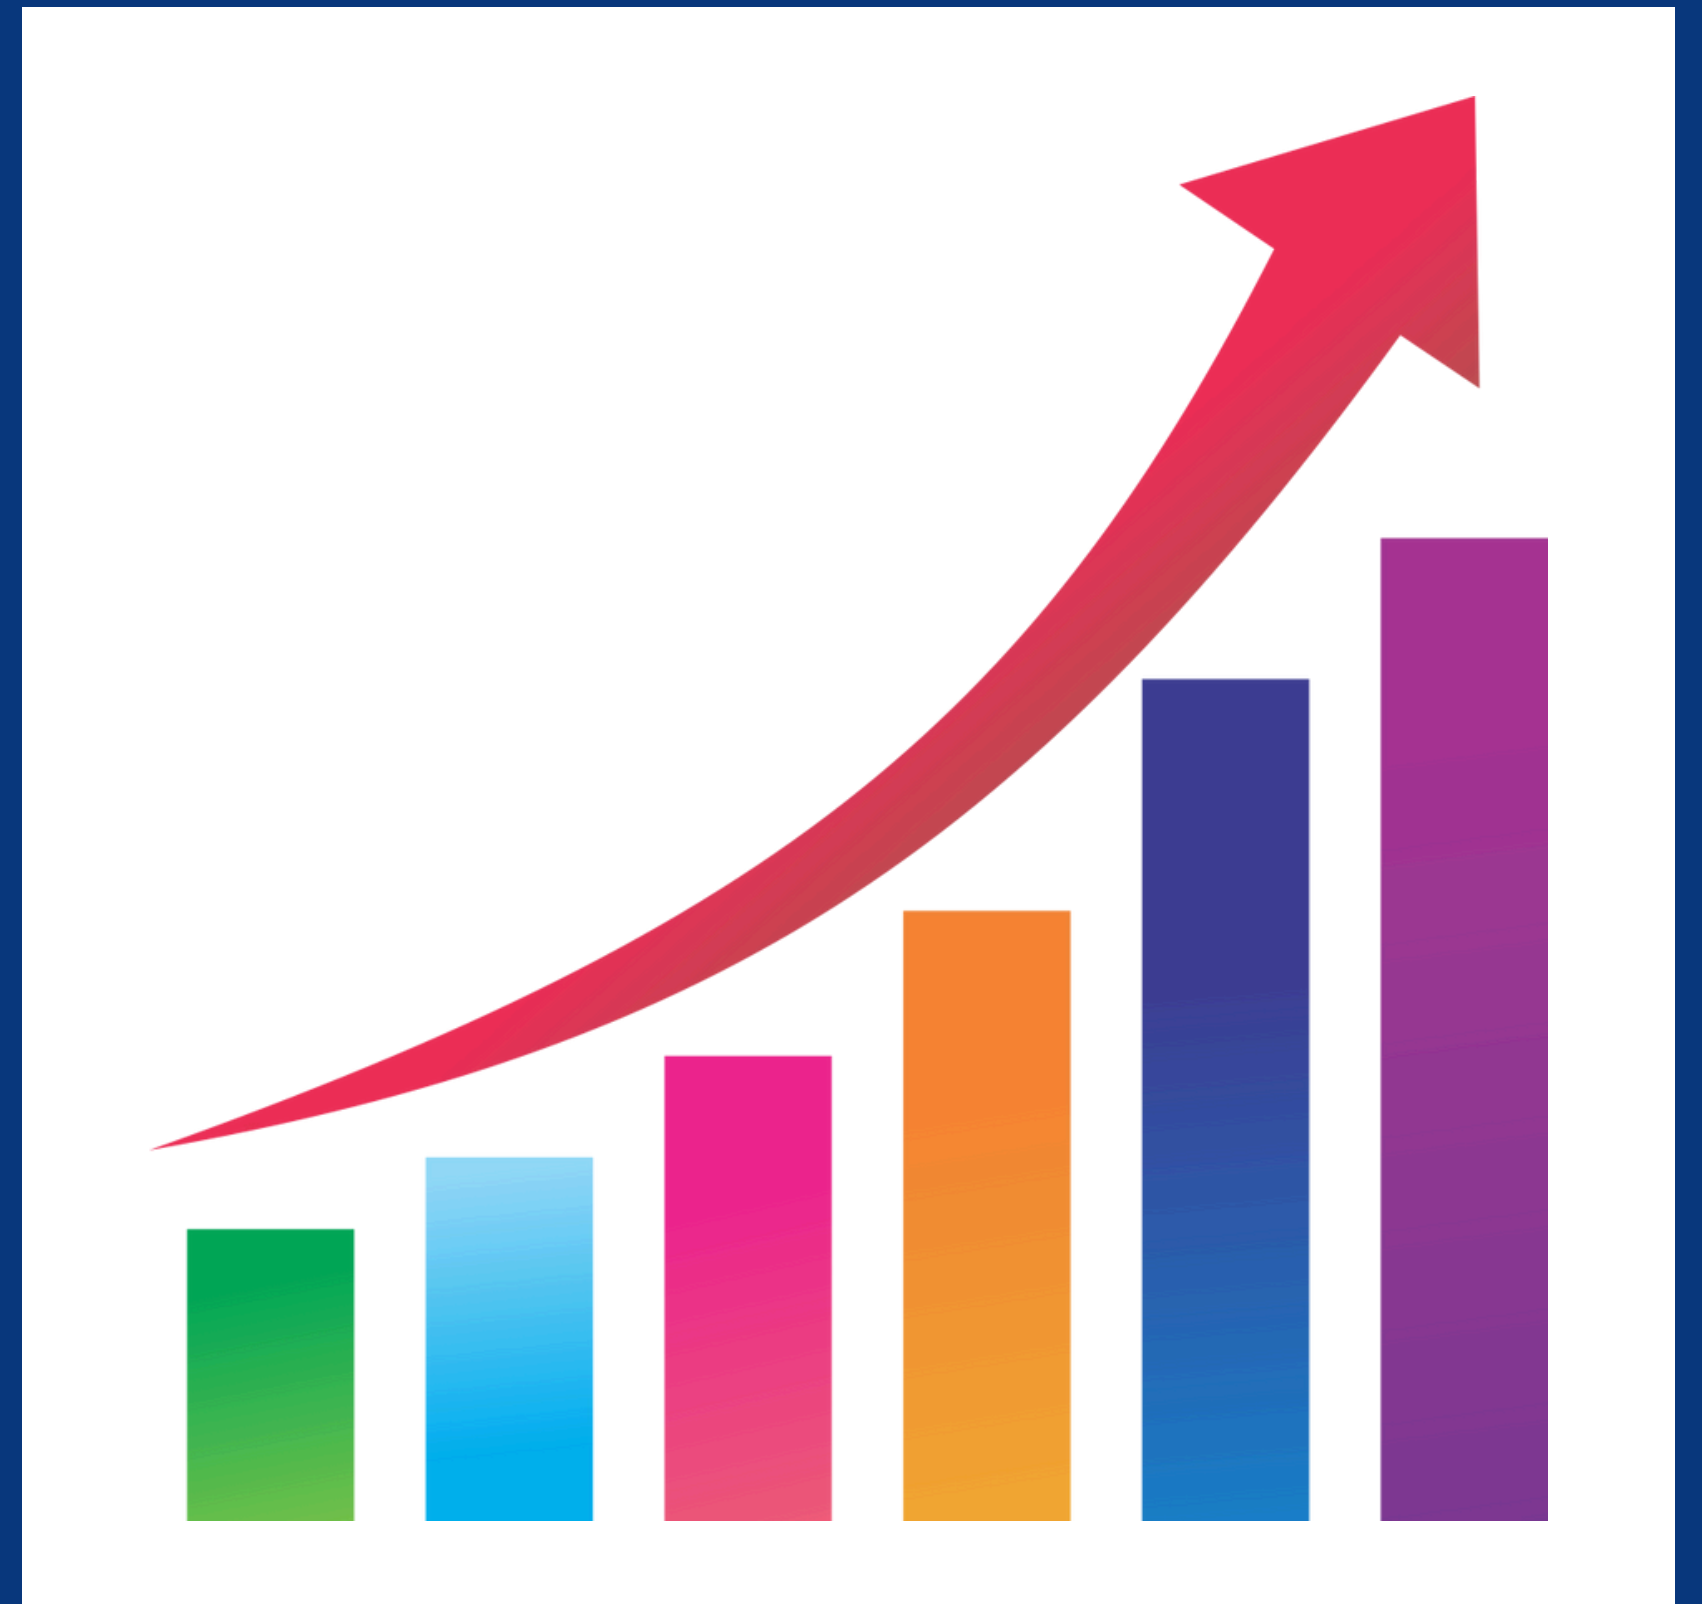

Leveraged technological advancements to enhance product offerings, leading to significant market penetration and the establishment of key international partnerships.

## 2023

Continued to innovate with improved ERP solutions and streamlined operations, resulting in increased client satisfaction, higher operational efficiency, and expanded global reach

## 2024

Poised for even greater growth, we are set to further enhance our technological capabilities, drive strategic partnerships, and expand our market leadership by offering cutting-edge solutions tailored to emerging industry needs.
